SUMMARY

I'm Rania Ijaz, a dedicated web developer and aspiring data scientist, constantly exploring new technologies to create innovative solutions. With expertise in the MERN stack and Next.js and a passion for machine learning, I thrive in fast-paced environments and am eager to contribute to cutting-edge projects.

EDUCATION

Khawaja Fareed University(KFUEIT)

Bachelor of Science in Computer Science

- CGPA: 3.85/4.00

RYK, Pakistan

2022 – Continued

Punjab Group of Colleges

FSC Pre medical

- Marks : 1019/1100

RYK, Pakistan

2018 – Aug 2020

Experience

Cod Soft web development internship

April - May 2024

FFC(IT Department)

- Learned about SAP ERP modules and their interconnections, and overall functionality .
- Developed Knowledge in cybersecurity and network security practices.
- Acquired practical skills in cloud computing

Goth Machi,Pakistan

August – Sep 2024

Byte Scripterz (FullStack Developer/Remote)

Jan 2025-Present

- Contributed to multiple web projects with a focus on React.js and Next.js, handling both frontend and backend development tasks.
- Played a key role in the development of ThokMandee, where I managed and built core features of the vendor-side application using Next.js and Tailwind CSS. Beside this there are multiple projects that I handled
- Collaborated in a remote team environment, delivering scalable, responsive, optimized web applications across various domains.

PROJECTS

Food Delivery App | React.js , Node.js , MongoDB, Express.js

- Developed a responsive MERN stack app with a main page, cart, login, and Stripe integration.
- Created an admin panel for managing food items and delivery statuses.
- Implemented delivery status tracking and secure Stripe payments.

CareerCraft | Next.js

- Developed a Next.js application for creating personalized resumes, cover letters, and accessing industrial insights.
- Integrated AI for intelligent resume and cover letter generation, enhancing customization and relevance.
- Built and integrated the backend using Prisma for efficient database management and real-time data handling.

Amazon Clone | Html,Css

- Built an Amazon clone using HTML and CSS to replicate e-commerce layout and features.
- Implemented a responsive design for seamless adaptation across devices.
- Focused on UI/UX to create an intuitive, user-friendly shopping experience

TECHNICAL SKILLS

Skills: Javascript,React.js,Next.js,Tailwind Css,Redux,MongoDb,Node.js,Express.js,HTML,CSS,Python,Machine learning,Deep Learning,Api Integration

Developer Tools: Git, Firebase, VS Code, Visual Studio, Google Colab, Kaggle, Hugging Face, Android Studio
