## SUMMARY

Full Stack Web Developer with a passion for creating interactive and responsive web applications. I have experience working with WordPress, JavaScript, React, Redux, Node.js, Express, PostgreSQL, MongoDB, Next.js, Supabase, Firebase, HTML, CSS, and Git. I am a quick learner, always eager to expand my knowledge and skill set. I am a strong team player and excited to collaborate with others to build innovative and user-friendly applications.

## EDUCATION

### Khawaja Fareed University (KFUEIT)

Bachelor of Science in Computer Science

• CGPA: 3.81/4.00

RYK, Pakistan

2022 – Continued

### Punjab Group of Colleges

FSC Premedical

• Marks: 1019/1100

RYK, Pakistan

2018 – Aug 2020

## Experience

### Cod Soft web development internship

April - May 2024

### FFC (IT Department)

Goth Machi, Pakistan

- Learned about SAP ERP modules and their interconnections, and overall functionality.
- Developed Knowledge in cybersecurity and network security practices.
- Acquired practical skills in cloud computing

August – Sep 2024

### Byte Scripterz (Full Stack Developer)

Oct 2024-Feb 2025

- Built and customized WordPress websites using themes and plugins to deliver responsive, client-focused solutions.
- Developed and maintained full-stack web applications using Next.js, React.js, Node.js and other technologies, delivering scalable, responsive, and optimized solutions.
- Collaborated with a remote team to design, build, and deploy core features across multiple projects in various domains.

### UniBotech – Software Developer (FullStack and WordPress developer)

Feb 2025-Present

- Designed and developed a Printer Centralization Dashboard for Unilever’s soap production lines, enabling centralized control of SKU printing on wrappers and boxes.
- Integrated the system with PLCs (Programmable Logic Controllers) to send commands directly to printers, ensuring accuracy and reducing manual errors.
- Collaborated with client stakeholders to align technical features with production and business needs.

## TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, Redux, Tailwind CSS, HTML5, CSS3, JavaScript, TypeScript, Python
- **Backend:** Node.js, Express.js, NestJS, FastAPI, PHP, Prisma
- **Databases:** MongoDB, PostgreSQL, MySQL, Firebase, Supabase
- **Cloud/Tools:** AWS, Docker, Git/GitHub, VS Code, Android Studio, CI/CD pipelines
- **CMS & Platforms:** WordPress
- **Other:** REST APIs, Stripe Integration, Authentication, AI integration

**Food Delivery App | React.js, Node.js, MongoDB, Express.js**

- Built a responsive MERN stack food delivery app with main page, cart, login, delivery tracking, secure Stripe payments.
- Developed an admin panel to manage food items and update delivery statuses.

**5crest | Wordpress**

- Built a platform with Wordpress to connect businesses with offshore talent.

**UniBotech | Wordpress, Divi Theme**

- Developed and customized a corporate website for UniBotech using WordPress and the Divi Theme.

**Career Craft | Next.js, Prisma, MongoDB, Clerk, Gemini**

- Developed a Next.js application for creating personalized resumes, cover letters, and accessing industrial insights.
- Integrated AI for intelligent resume and cover letter generation, enhancing customization and relevance.
- Built and integrated the backend using Prisma for efficient database management and real-time data handling.

**NeoGiga | Next.js, Redux, Tailwind, Prisma, Node.js, Express**

- Developed a multi-vendor electronic e-commerce platform with vendor dashboards and a centralized admin panel.
- Implemented product listings, vendor management, and order handling workflows.
- Utilized Prisma ORM with PostgreSQL for efficient and type-safe database management.
- Designed a responsive front end with Next.js and Tailwind CSS for a smooth shopping experience.

**Printer Centralization Dashboard | React.js, Redux, Node.js, Express, Bootstrap, MySQL**

- Built a centralized dashboard to manage SKU printing for Unilever's soap production lines.
- Enabled operators to assign SKUs for wrappers/boxes from a single interface, reducing manual coordination.
- Improved accuracy and efficiency in production reporting.

**Amazon Clone | Html, CSS**

- Built an Amazon clone using HTML and CSS, replicating e-commerce layout and core features with responsive design.
  - Focused on UI/UX to create an intuitive and user-friendly shopping experience across devices.
-
