SUMMARY

Full Stack Web Developer with 3 years of experience delivering scalable, user-focused applications using React.js, Next.js, Node.js, Express and modern databases. Skilled in cloud deployment, responsive UI design, and API integration.

Through **UniBotech**, I delivered a high-impact project for **Unilever Pakistan** by developing a Printer Centralization Dashboard, improving device monitoring efficiency and supporting digital transformation initiatives. In addition, I have delivered e-commerce, food delivery, and vendor management platforms.

EDUCATION

Khawaja Fareed University (KFUEIT)	RYK, Pakistan
Bachelor of Science in Computer Science	*2022 – Continued*

- CGPA: 3.81/4.00

Punjab Group of Colleges	RYK, Pakistan
FSC Premedical	*2018 – Aug 2020*

- Marks: 1019/1100

Experience

Cod Soft web development internship	*April - May 2024*
FFC (IT Department)	*Goth Machi, Pakistan*

- Learned about SAP ERP modules and their interconnections, and overall functionality.   *August – Sep 2024*
- Developed Knowledge in cybersecurity and network security practices.
- Acquired practical skills in cloud computing

Byte Scripterz (Full Stack Developer)	***Oct** 2024-Feb 2025*

- Developed and maintained full-stack web applications using Next.js, React.js, Node.js, and other technologies, delivering scalable, responsive, and optimized solutions.
- Collaborated with a remote team to design, build, and deploy core features across multiple projects in various domains.

UniBotech – Software Developer (Client: Unilever Pakistan)	***Feb** 2025-Present*

- Designed and developed a Printer Centralization Dashboard for Unilever's soap production lines, enabling centralized control of SKU printing on wrappers and boxes.
- Integrated the system with PLCs (Programmable Logic Controllers) to send commands directly to printers, ensuring accuracy and reducing manual errors.
- Improved efficiency by streamlining printing operations, reducing downtime, and supporting Unilever's broader digital transformation goals.
- Collaborated with client stakeholders to align technical features with production and business needs.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, Redux, Tailwind CSS, HTML5, CSS3, JavaScript, TypeScript,Python
- **Backend:** Node.js, Express.js, NestJS, FastAPI, PHP, Prisma
- **Databases:** MongoDB, PostgreSQL, MySQL, Firebase, Supabase
- **Cloud/Tools:** AWS, Docker, Git/GitHub, VS Code, Android Studio, CI/CD pipelines
- **CMS & Platforms:** WordPress
- **Other:** REST APIs, Stripe Integration, Authentication, AI integration

Food Delivery App | React.js, Node.js, MongoDB, Express.js
- Built a responsive MERN stack food delivery app with main page, cart, login, delivery tracking, secure Stripe payments.
- Developed an admin panel to manage food items and update delivery statuses.

Career Craft | Next.js, Prisma, MongoDB, Clerk, Gemini
- Developed a Next.js application for creating personalized resumes, cover letters, and accessing industrial insights.
- Integrated AI for intelligent resume and cover letter generation, enhancing customization and relevance.
- Built and integrated the backend using Prisma for efficient database management and real-time data handling.

5crest | Next.js, Tailwind, Firebase
- Built a platform with Next.js and Tailwind CSS to connect businesses with offshore talent.
- Used Firebase and Firestore for authentication and real-time data.

NeoGiga | Next.js, Redux, Tailwind, Prisma, Node.js, Express
- Developed a multi-vendor electronic e-commerce platform with vendor dashboards and a centralized admin panel.
- Implemented product listings, vendor management, and order handling workflows.
- Utilized Prisma ORM with PostgreSQL for efficient and type-safe database management.
- Designed a responsive front end with Next.js and Tailwind CSS for a smooth shopping experience.

Printer Centralization Dashboard | React.js, Redux, Node.js, Express, Bootstrap, MySQL
- Built a centralized dashboard to manage SKU printing for Unilever's soap production lines.
- Enabled operators to assign SKUs for wrappers/boxes from a single interface, reducing manual coordination.
- Improved accuracy and efficiency in production reporting.

Amazon Clone | Html, CSS
- Built an Amazon clone using HTML and CSS, replicating e-commerce layout and core features with responsive design.
- Focused on UI/UX to create an intuitive and user-friendly shopping experience across devices.
